

建築結構剖面細部圖 A1-A9 BUILDING CONSTRUCTION SECTION DETAIL A1-A9

1. natural stone, finishing in rustic style
2. water proof material.
3. h = 1 cm layer of grasping mortar.
4. wastewater pipe of rainwater
5. reticulate reinforced concrete slab
6. wastewater pipe
7. drip
8. matted black anodizing aluminum pipe for incorporating window
9. window with fest glass and black steel profiles
10. black steel door swing

11. polished cement floor interlacing with anodized natural color aluminum
12. layer of concrete, leveling h = 5cm
13. reinforced concrete slab h = 20 cm
14. use the integral concrete in the foundation for preventing possible problems of humidity, given the territory characteristic
15. waterproofing foundation
16. natural stone shallow foundation with minimum embed
17. overhead light for bathroom light
18. opening for bathroom ventilation

19. reticulate reinforced concrete slab h=40 cm
20. join the top reinforced concrete
21. the facade of national stone sculpting in rustic style for finish
22. brick wall flatted gypsum with finished polished cement or painting for special mortar consntruction work
23. concrete chain
24. black steel beam, for special detail
25. black steel door slide
26. reinforced concrete slab, h=10 cm
27. concrete apparent fringe with integral waterproofing
